

2021 NATIONAL EX FORMULARY

The following is a list of the most commonly prescribed brand and generic medications. It represents an abbreviated version of the formulary list that is at the core of your prescription drug benefit plan. The list is not all-inclusive and does not guarantee coverage. Some preferred medications overlap with other clinical programs and may not be covered. In addition to drugs on this list, the majority of generic medications are covered under your plan and you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate. Search complete formulary drug information at elixirsolutions.com.

PLEASE NOTE: Preferred brand drugs may move to non-preferred status if a generic version becomes available during the year. Any medication approved to enter the market will not be covered until reviewed by Elixir. Not all drugs listed are covered by all prescription drug benefit programs. For specific questions about your coverage, please visit elixirsolutions.com.
