

# Formulario National EX Abreviado 2023

La siguiente es una lista de los medicamentos de marca y genéricos más comúnmente recetados. Representa una versión abreviada de la lista del formulario que es el núcleo de su plan de beneficios de medicamentos recetados. La lista no es exhaustiva y no garantiza la cobertura. Algunos medicamentos preferidos se superponen con otros programas clínicos y es posible que no estén cubiertos. Además de los medicamentos en esta lista, la mayoría de los medicamentos genéricos están cubiertos por su plan y se le recomienda que le pida a su médico que le recete medicamentos genéricos cuando sea apropiado. El comité de Farmacia y Terapéutica (P&T) de Elixir es responsable del desarrollo y mantenimiento del formulario. El comité está formado por médicos y farmacéuticos independientes de una amplia variedad de especialidades médicas. El formulario se revisa y se actualiza a medida que se dispone de nuevos medicamentos o de nueva información de prescripción. Los factores que afectan las decisiones relativas al formulario son el uso seguro, la eficacia clínica y la necesidad terapéutica. Sólo después de evaluar estos factores se considera el costo. El cumplimiento con el formulario es importante para mejorar la calidad de la atención y contener los costos de la atención de salud. Una copia de este documento del formulario está disponible en [elixirsolutions.com](http://elixirsolutions.com).

NOTA: Los medicamentos de marca preferidos pueden pasar a ser no preferidos si aparece una versión genérica durante el año. Un medicamento recientemente aprobado por la FDA no estará cubierto hasta que sea revisado por el comité de Farmacia y Terapéutica (P&T) de Elixir. No todos los medicamentos enumerados están cubiertos por todos los programas de beneficios de medicamentos recetados. Es posible que se apliquen ciertas ediciones y criterios de utilización. Si tiene preguntas específicas sobre su cobertura, visite [elixirsolutions.com](http://elixirsolutions.com). *Efectivo 1/1/23.*

# Terapias Escalonadas

CATEGORÍA TERAPÉUTICA	TRATAMIENTO	TRATAMIENTO
Agentes endocrinos (Testosterona) <sup>1</sup>	testosterone, testosterone cypionate, testosterone enanthate, testosterone pump, testosterone topical/solution	Androgel, Aveed, Depo-Testosterone, Fortesta, Jatenzo, Natesto, Striant, Testopel, Vogelxo, Xyosted
Agentes estimulantes de la eritropoyesis [SP] <sup>*1</sup>	Retacrit	Epogen, Procrit
Agentes hematopoyéticos [SP] <sup>*1</sup>	Fulphilia, Ziextenzo	Neulasta, Nyvepria, Udenyca
Agentes reductores de lípidos (PCSK9) <sup>1</sup>	Repatha	Leqvio, Praluent
Biológicos inflamatorios [SP] <sup>*1</sup>	Avsola, Inflectra	Remicade
Cáncer de mama avanzado o metastásico [SP] <sup>*1</sup>	Ibrance, Verzenio	Kisqali, Kisqali Femara Pack
Diabetes: Inhibidores de la dipeptidil peptidasa 4 y combinaciones	Janumet, Janumet XR, Januvia	alogliptin, alogliptin/metformin, alogliptin/pioglitazone, Jentaduetto, Jentaduetto XR, Kazano, Kombiglyze XR, Nesina, Onglyza, Oseni, Tradjenta
Diabetes: Inhibidores del cotransportador-2 de sodio y glucosa	Farxiga, Jardiance, Synjardy, Synjardy XR, Xigduo XR	Invokana, Invokamet, Invokamet XR, Segluromet, Steglatro, Steglujan
Diabetes: Insulina de acción intermedia	Humulin U-500, Novolin N	Humulin N
Diabetes: Insulina de acción prolongada	Lantus, Levemir, Toujeo, Tresiba	Basaglar, insulin glargine, Semglee
Diabetes: Insulina de acción rápida	Fiasp, Novolog products, insulin aspart, insulin aspart protamine/insulin aspart	Admelog, Afrezza, Apidra, Humalog, Insulin Lispro, Lyumjev
Diabetes: Péptido-1 similar al glucagón <sup>1</sup>	Bydureon, Ozempic, Rybelsus, Trulicity, Victoza	Adlyxin, Byetta, Mounjaro
Diabetes: Suministros para pruebas	Productos OneTouch	Todos los demás medidores y tiras de prueba
Esclerosis múltiple [SP] <sup>*1</sup>	dimethyl fumarate, glatiramer	Vumerity, Zeposia
Esclerosis múltiple 2 [SP] <sup>*1</sup>	Aubagio, Avonex, Betaseron, dimethyl fumarate <sup>2</sup> , Gilenya, glatiramer <sup>2</sup> , Kesimpta, Mavenclad, Mayzent, Plegridy, Rebif, Vumerity	Bafiertam, Copaxone, Extavia, Glatopa, Ponvory, Tecfidera
Factores estimulantes de colonias de granulocitos [SP] <sup>*1</sup>	Nivestym, Zarxio	Granix, Neupogen, Releuko
Hormona del crecimiento [SP] <sup>*1</sup>	Norditropin	Genotropin Miniquick, Humatrope, Nutropin Aq, Omnitrope, Saizen, Serostim, Skytrofa, Zomacton, Zorbtive
Leucemia mieloide crónica con cromosoma Filadelfia positivo (Ph+ CML) con mutación T315I	Iclusig	Scemblix
Leucemia mieloide crónica positiva para el cromosoma Filadelfia en fase crónica [SP] <sup>*1</sup>	imatinib (genérico), Sprycel	Bosulif, Tasigna
Osteoporosis (Análogo de la hormona paratiroides) [SP] <sup>*1</sup>	Forteo, Tymlos	Teriparatide
Policitemia vera	Pegasys	Besremi

[SP]<sup>\*</sup> = Todos los medicamentos de marca de especialidad

1 = Pueden aplicarse criterios específicos a la categoría

2 = Se requirieron medicamentos genéricos antes de los de marca preferidos

Medicamentos de marca = Mayúsculas, genéricos = minúsculas
